VI Meeting of the Latin American DOHaD Regional Society (Developmental Origins of Health and Disease)

October 26-30, 2026

**Auditorio Jorge Ibargüengoitia, Sede Fórum
Universidad de Guanajuato Campus León
León, Guanajuato México**

CALL FOR SYMPOSIA

We warmly invite members of the International DOHaD Community to contribute with their expertise by submitting proposals for **Symposia** to be presented at the **VI Meeting of the Latin American DOHaD Regional Society**. On this occasion, the event will be held jointly with the XXVI International Meeting of Medical Sciences (XXVI Reunión Internacional de Ciencias Médicas, XXVI RICM).

To help us shape the program, we ask that all proposals are aligned with the meeting's seven DOHaD thematic axes, ensuring they address key areas of interest and relevance. This is a unique opportunity to engage with international peers on cutting-edge research and advancements in developmental origins of health and disease. Your contributions will be invaluable in fostering meaningful discussions and collaborations that advance our shared goals. Thanks to the efforts from the LA-DOHaD/RICM joint meeting organizers, Symposia speakers and coordinators will be exempt from paying the registration fee.

Proposals must comply with the following requirements:

- **Each Symposium must consist of one coordinator and three speakers. Each speaker will give a 20-minute talk, followed by a 15-minute Q&A session (total duration: 75 minutes).** Participants are required to be at least from **two or more different countries**.
- We encourage proposals that bring together experts from diverse disciplines and backgrounds to foster interdisciplinary dialogue and advance understanding of complex topics related to our thematic axes. We highly recommend gender-balanced speaker panels.
- Proposals must be sent by **May 15th, 2026** to **ladohadmeeting2026@outlook.com** with the following information:

SYMPOSIUM PROPOSAL

VI Meeting of the Latin American DOHaD Regional Society
